

COMPANY OVERVIEW

Pardo Digital LLC is a veteran-owned technology services firm based in Atlanta, Georgia, delivering cloud infrastructure, IT modernization, and custom application development for federal agencies, prime contractors, and enterprise clients. Our leadership pairs U.S. Army service and AWS-certified cloud engineering with native English and Spanish capability, supporting missions that demand both technical depth and direct community engagement.

CORE CAPABILITIES

Cloud Infrastructure & Migration

AWS and Azure design, VPC architecture, multi-AZ high availability, and infrastructure as code (CloudFormation, Terraform).

Custom Application Development

Web applications, REST APIs, serverless builds (Lambda, API Gateway), and database design (RDS, DynamoDB).

IT Modernization & Managed Services

Legacy system migration, business systems setup, security and compliance support, and ongoing IT operations.

Bilingual Digital Services

English and Spanish web development, translation, community-facing tools, and Section 508 / WCAG accessibility compliance.

DIFFERENTIATORS

Veteran Leadership: Founded and led by a 100% service-connected, permanently and totally disabled U.S. Army veteran (MOS 13B) committed to mission-driven federal work.

AWS Certified: AWS Solutions Architect Associate and AWS Cloud Practitioner credentials, with hands-on VPC, EC2, Lambda, S3, RDS, IAM, CloudFormation, and Route 53 experience.

SDVOSB Eligible: Service-Disabled Veteran-Owned Small Business certification in process through the SBA VetCert program, positioned for set-aside opportunities under the 3% government-wide SDVOSB contracting goal.

Bilingual Capability: Native English and Spanish service delivery, supporting federal missions that engage Hispanic communities and Latin American partnerships.

Agile and Responsive: Small-team agility enables 4-hour inquiry response, 7 to 14 day project turnaround, and direct principal access on every engagement.

PAST PERFORMANCE

Piedad Giraldo Realty (2026, Atlanta, GA). Designed, developed, and deployed a production bilingual real estate website with custom property listings, lead-capture infrastructure, and integrated CRM, hosted on serverless infrastructure. *Technologies:* React, Supabase (PostgreSQL), Stripe, Resend.

Pardo Digital Platform (2026, Atlanta, GA). Built a proprietary multi-tier client acquisition platform including an instant website audit tool (Google PageSpeed API), an AI-powered cost estimator, automated email sequences, Stripe Checkout integration, and bilingual content delivery. Demonstrates full-stack capability across frontend, backend, payments, and analytics.

Additional past performance and case studies available upon request.
